

AGENDA

2010 CIP Updates

I. **Topic of Discussion:** The Federal and State governments have provided updates to CIP codes. Our production system and business acumen within each impacted business area must be synched with the changes in the CIP codes. EMPS has made some cursory assessments of how the 2010 changes will impact PeopleSoft setup data. Business Owners need to review the assessments of the changes. EMPS and ES staff will partner with Business Owners in making the necessary changes to the production system.

II. **EMPS/ES Review of Impacted Objects:**

a. **Tables** –Below are setup tables that were identified by EMPS/ES as needing to be updated for the 2010 CIP changes:

| Record | Rec Descr | Area/Comment |
|-----------------|-------------------------------|--------------------------------|
| ACAD_PLAN_TBL | Academic Plan Table | SR |
| ACAD_SUBPLN_TBL | Academic Sub Plan Table | SR |
| CIP_CODE_TBL | CIP Table | SACR mstr tbl |
| CRSE_OFFER | Course Catalog Offerings | SR |
| UHCB_DEPT_FACTL | Facility Ownership Department | CBIR; SACR Facilities mstr tbl |

b. **Coding** – EMPS/ES has identified the below impacts to coding logic for the 2010 changes:

- i. CB – module CB/IR has no coding logic that would need to be updated
- ii. FA – module FA has no coding logic that would need to be updated
- iii. SR – module SR has no coding logic that would need to be updated
- iv. **SEVIS – may have logic that needs to be updated; Riod to follow-up with developer and SEVIS business owners on what changes would need to be made to coding logic**

III. **EMPS Assessments of Impacted Rows of Data:**

a. EMPS has compiled data assessments of how the 2010 changes will impact rows of data in the CIP Code master, Academic Plan, Academic Subplan, Course Offer, and Facility setup tables.

b. The assessments also include a suggested method for updating rows that need to be changed. The suggestion takes into account the volume of records needed to be changed, whether the rows of data are shared across campuses or campus specific, and a cursory determination of whether it is more appropriate for certain items of updates to be handled manually by the data owner. Business Owners will be asked to confirm which method of update will be used. Below is a summary of the suggested methods of updates for impacted objects:

- i. SACR CIP Code master setup table – suggest SCRIPT
- ii. Academic Plan setup table – suggest DATA ENTRY (campus specific)
- iii. Academic Subplan setup table – suggest DATA ENTRY (campus specific)
- iv. Course Offer setup table – suggest SCRIPT
- v. Facilities setup table – suggest DATA ENTRY (campus specific)

IV. **Business Owners Review of Assessments and Confirmation of Update per Data Record:**

a. Business Owners must review the assessments and provide feedback per assessment. The business owners file versions are template-based that include areas in the file for the owner to document their feedback.

V. Documents Reference:

a. Below are documents related to the 2010 CIP updates effort:

i. **Business Owners Verification of Assessments Files (used by business owners to document their feedback)**

1. IPEDS Crosswalk assessments verification:
P:\Documentation\UH_UHV-SAARollout\BusOwnerVerif_Fed Crosswalk Assessment.xlsx
2. State Crosswalk assessments verification:
P:\Documentation\UH_UHV-SAARollout\BusOwnerVerif_State Crosswalk Assessment.xlsx
3. SACR CIP table assessments verification:
P:\Documentation\UH_UHV-SAARollout\BusOwnerVerif_SACR CIP Table Assessment.xlsx
4. Academic Plan table assessments verification:
P:\Documentation\UH_UHV-SAARollout\BusOwnerVerif_Acad Plan Assessment.xlsx
5. Academic Subplan table assessments verification:
P:\Documentation\UH_UHV-SAARollout\BusOwnerVerif_Acad SubPlan Assessment.xlsx
6. Course Offer table assessments verification:
P:\Documentation\UH_UHV-SAARollout\BusOwnerVerif_Course Offer Assessment.xlsx
7. Facilities table assessments verification:
P:\Documentation\UH_UHV-SAARollout\BusOwnerVerif_SACR Facilities Assessment.xlsx

ii. **Original Files from IPEDS (IR/Mark Fiore) and THECB (IR/Julie Nguyen)**

1. IPEDS Crosswalk:
P:\Documentation\UH_UHV-SAARollout\CIP 2010 IPEDS Crosswalk.csv
2. State Crosswalk:
P:\Documentation\UH_UHV-SAARollout\CIP Codes THECB.xls

iii. **Working Files/Working Papers**

1. Various additional files:
P:\Documentation\UH_UHV-SAARollout\CIP 2010 IPEDS Crosswalk.xlsx
[P:\Documentation\UH_UHV-SAARollout\CIP Codes THECB \(2\)_state CIPs from Julie.xlsx](P:\Documentation\UH_UHV-SAARollout\CIP Codes THECB (2)_state CIPs from Julie.xlsx)
P:\Documentation\UH_UHV-SAARollout\ps_acad_plan_tbl-active.xlsx
P:\Documentation\UH_UHV-SAARollout\ps_acad_subplan_tbl-active.xlsx
P:\Documentation\UH_UHV-SAARollout\ps_cip_code_tbl-active.xlsx
P:\Documentation\UH_UHV-SAARollout\ps_crse_offer-active.xlsx
P:\Documentation\UH_UHV-SAARollout\ps_uhcb_dept_factl-active.xlsx

VI. NEXT STEPS:

- a. 9/20 – 9/24; Business Owners review and verification of assessments (use files under section ‘Vai’ above)
- b. 9/20 – 9/22; Leo/Meredith to provide Marie with a template block of code for suggested sql script updates (currently the SACR CIP table and Course Offer table)
- c. 9/20 – 9/23; Leo/Meredith/ES/Marie test turning on audits of SACR CIP table
- d. 9/23 – 9/24; Marie generate “full” sql scripts based on Leo/Meredith template blocks of code to test in TST
- e. 9/27; Run test sql scripts in TST, EMPS cursory review
- f. 9/28 – 10/1; Business owners test and approval of sql updates
- g. 10/4 – 10/5; EMPS cursory review of sql update made to production
- h. 10/4 – 10/8; Business owners perform online data entry updates for items agreed data entry is the method of update
- i. 10/11 – 10/12; Post-production data entry updates/sql updates review to verify all updates appear ok

Contact Information

(UHS) Marie Coleman: macolem3@central.uh.edu ; (713) 743-9762

SUMMARY OF FINDINGS AND SUGGESTED ACTIONS FOR 2010 FEDERAL CIP UPDATES

| Count of Current code Action_PSoft | Finding | Notes/Action | Total | Potential Data Entry/Script |
|---|---|---|--------------|-----------------------------|
| Create New Record | 1. IPEDS action is "new" 2. IPEDS new code does not exist in Psoft (column I comparison) | 1. create new record with Active status with new value (column E) | 351 | 351 |
| | 1. IPEDS action is "no substantive changes" 2. IPEDS new code and old code both do not exist in Psoft (columns H and I comparisons) | 1. create new record with Active status with new value (column E) | 7 | 7 |
| Inactivate Retired Record | 1. IPEDS action is "deleted" (CIP should no longer be used) 2. IPEDS old code exists in Psoft (col H comparison) | 1. insert new row with Inactive status for old value (column A) ****note since IPEDS is describing this as a "delete" action all modules should assess what all that means to their area in relation to business processes and other cip tables impacted that's not setup table SACR pc_cip_tbl | 47 | 47 |
| Inactivate Retired Record plus Create New Record | 1. IPEDS action is "moved to" (old CIP now recognized as new value) 2. IPEDS old code exists in Psoft (col H comparison) 3. IPEDS new code does not exist in Psoft (col I comparison) | 1. create new record with Active status with new value (column E) 2. insert new row with Inactive status for old value (column A) ****note - since IPEDS is describing this as a "moved to" action all modules might need to assess what that language "moved to" means in relation to other cip tables not SACR ps_cip_tbl | 116 | 232 |
| No Action | 1. IPEDS action is "new" 2. Although showing on IPEDS list as "New", this value exists already in Psoft (column I comparison) | 1. Suggest NO ACTION NEEDED since already exists in Psoft | 3 | |
| | 1. IPEDS action is "no substantive changes" 2. Code exists already in Psoft (column I comparison) | 1. Suggest NO ACTION NEEDED since already exists in Psoft | 1,678 | |
| Grand Total | | | 2,202 | 637 |

Additional notes/suggestions:

1. This comparison focuses on SACR CIP setup table only (ps_cip_code_tbl)
2. Data owners (ie SR, FA, SEVIS, CB) should ensure to review codes IPEDS has marked for "Deleted" and "Moved To" for impacts to users business processes as well logic if applicable (data owners should note some of the suggested actions entail inserting inactive Status rows for codes in Psoft in the cip_code_tbl SACR master table where IPEDS has indicated the code is moved or deleted)
3. Note: comparisons did not look at differences in descriptions between existing Psoft descriptions and IPEDS descriptions
4. Note: if a sql is determined to be the tool used for updating the SACR CIP table, data owners must confirm what values should be populated in the script (ie effective date, description, etc)

SUMMARY OF FINDINGS AND SUGGESTED ACTIONS FOR 2010 CIP UPDATES FOCUSING ON ACAD PLAN TABLE

| Count of CIP Code | | | | | | | | Potential |
|--|--|---|-------------|------------|------------|-------------|--|-------------------|
| Action Psoft | Finding | Action Notes | 00730 | 00759 | 00765 | Total | | Data Entry/Script |
| BOwner Review | 1. Active Plan is Missing a CIP | 1. The setup for the active plan doesn't have a CIP value populated; data owner needs to review the setup and determine what should have been populated | 158 | | 34 | 192 | | 192 |
| | 1.CIP populated for active plan does not exist in the State xwalk (column AJ comparison) 2. CIP used for plan is not the generic 99.9999.99-Undefined value | 1. Data owner needs to review the setup and provide an appropriate CIP for the plan that exists in the xwalk | 1 | 5 | | 6 | | 6 |
| | 1.CIP populated for active plan does not exist in the State xwalk (column AJ comparison) 2. CIP used for plan is 99.9999.99-Undefined | 1. Data owner needs to review the setup and provide an appropriate CIP for the plan where 99.9999.99-Undefined is not appropriate | 28 | 18 | 13 | 59 | | 59 |
| Create New Active Row with Replacement CIP | 1. State CIP value for active plan found in xwalk but funding code does not match (columns AJ and AL comparison) | 1. Insert new row with Active status using the fund code per the xwalk (column AJ/AK; concatenate with space) | 14 | 169 | | 183 | | 183 |
| | should now be reported under a different CIP (columns AJ, AL and AM comparison) | 1. Insert new row with Active status with new value (column AM/AU) | 39 | 6 | 14 | 59 | | 59 |
| No Action | 1. CIP code for the active plan matches the state and fed xwalks | 1. NO ACTION NEEDED since what's in the table matches the xwalks | 890 | 29 | 177 | 1096 | | |
| Total | | | 1130 | 227 | 238 | 1595 | | 499 |
| Grand Total Excluding 'No Action' Items | | | 240 | 198 | 61 | | | |

Additional notes/suggestions:

1. This comparison focuses on differences in ACAD PLAN (ps_acad_plan_tbl) setup table with the State and Fed 2010 crosswalk files
2. Data owners (ie SR, FA, SEVIS, CB) should ensure to review codes that exist in Psoft but do not exist in the Fed and State Crosswalk files
3. Note: comparisons did not look at differences in descriptions between existing Psoft descriptions and IPEDS descriptions
4. Note: cursory review indicates CIP updates needed to the plan table can reasonably be done via **USER DATA ENTRY** instead of using a script. If a sql is determined to be the tool used for updating the table, data owners must confirm what values should be populated in the script (ie effective date)

TABLES CONTAINING FIELD '%CIP%'

| Record | Rec Descr | Rec Type | Field Name | Descr | Area/Comment |
|-----------------|-------------------------------|----------|--------------------|--|--------------------------------|
| ACAD_PLAN_TBL | Academic Plan Table | 0 | CIP_CODE | CIP code | SR |

Assessment: This assessment focuses on comparisons made between CIPs provided in the State/Fed Crosswalk file against CIPs stored in the ACAD PLAN table; only key fields are provided in the table below

Note: Additional comparisons with more fields used for generating the assessment can be found in source file 'ps acad plan tbi-active.xlsx', in Tab 'ps acad plan tbi'

Note: Text references to columns in the 'Action Notes' field in the below table actually refer to the column in the source table and not the column in this tab

Institution(s): UHCL

What's Needed By Data Owner: Review the assessments that have been made using the key fields (highlighted in blue) that are provided in the table below; the key fields provide a general reference of comparison, however additional fields with formulas used to analyze the data can also be reviewed in the source document. If a script is to be used for making updates to the system the data owner also needs to complete the fields highlighted in yellow. If data entry instead will be used as the method of update it is optional to complete the fields highlighted in yellow, however completing the fields highlighted in yellow may aid in data entry updates.

Module(s): SR (indirectly impacted are CB, SEVIS)

Data Owner(s): Lourdes Ledesma (UHCL)

Date Data Owner Must Complete Verification of Assessments: 9/22/2010

PLEASE CONFIRM AGREEMENT OF METHOD OF UPDATE (DATA ENTRY OR SCRIPT):
 Use Data Entry (EMPS suggests using Data Entry for this update)
 Use Script

| Institution | Action Point | Finding | Action Notes | CIP Code | vlookup CIP Desc in SACR CIP mstr tbi | Acad Plan | Descr | Plan Type | Acad Prog | vlookup State CIP | vlookup State CIP + fund code | vlookup CIP Desc State xwalk | vlookup State CIP - Move From/To | BUSINESS OWNER CONFIRMATION | | BUSINESS OWNER CONFIRMATION OF ADDITIONAL FIELD UPDATES IF SCRIPT IS USED | |
